

Enrollment + Tuition

At ClapClap2spanish, we believe that the best way of learning Spanish, is by living the language through games, music and having fun in an emerging Spanish environment. Students will be able to participate in different activities based on their level of Spanish and because of the constantly engaged in changing activities the class turn into a fun and enjoyable hour of Spanish every week!

We offer an outstanding Spanish immersion after-school program based on enhancing grammar and multicultural knowledge supplemented by physical activities. Program is geared for all students (beginning, intermediate and advanced).
