

THE SCIENCE OF MINECRAFT

TUESDAYS AT BANCROFT ELEMENTARY! SEPT 13TH TO NOV 15TH

In this Minecraft themed STEAM class, students will learn the fundamentals of Science, Technology, Engineering, Art and Math as they exist in the Minecraft realm. Children will work on different experiments and activities each week that challenges their mind to think outside the box and bring Minecraft off the screen and into the real world. Lots of take-home projects!.

From physics to chemistry to engineering, kids will learn what makes their favorite game go!

**this is a non-lego class*

WHAT BETTER WAY TO LEARN THAN TO COMBINE SCIENCE AND MINECRAFT?

Who: 1st to 5th grades
Cost: \$200 for 10 classes (includes materials fee)
