

Red Orange Green Tennis

Introductory Tennis lessons for boys and girls 1st-5th grade. Low compression Red, Orange, and Green balls are used. These balls bounce slightly lower than the regular yellow balls, which makes it much easier for the kids to play and learn with. Tennis is a fun, skill-based sport that develops hand-eye coordination, and is a great form of exercise for kids! **Please wear athletic shoes and clothing. ***Email if you need a racquet**
